May 7, 1928.

Ernest Sullivan,
Barnesville, Ga.

Ernest:

I would like for you to arrange to plow out my nursery across the street about once every two weeks. This nursery is to be plowed two ways. Mrs. Collier will be at home this week, and will explain to you just how this is to be worked. Call by the house and see her. There are about three rows of cuttings next to Mr. Bush's, which are not to be plowed at all, but only worked with a hoe. This is on account of the fact that the roots are not to be disturbed for two months. I trust that you will get to this this week.

Yours truly,

DCC:E
